Rio Adobe Philosophy and Culture

We all need to eat to live and we all know that life is short, so we founded Rio Adobe on that principle. Rio Adobe is about fresh wholesome food at everyday affordable prices. We are also about healthy food, if you are going to eat something everyday or often then it should be good for you.

Our Product

There are all kinds of diet fads that come and go. Most of us have tried them in some manner. The one theme that is common to all of the fads is moderation. A diet that consists of a balanced and moderate supply of fruits, vegetable, proteins and fat combined with an active lifestyle is one that will help most maintain a healthy physique and provide a foundation for long life.

The menu and recipes at Rio Adobe have been carefully developed to provide a choice when dining out. It is becoming increasingly difficult in the restaurant marketplace to find healthy alternatives that actually taste good and are affordable on an every day basis.

Our menu pledges the following:

- ♦ All our recipes are made in house and never outsourced.
- ♦ Our produce is the freshest possible, highest quality available.
- ♦ We do not use lard.
- ♦ We do not cook with trans-fats
- ♦ We do not use M.S.G. or any other artificial preservatives.

The fruits of the traditional Indian harvest evolved over time with the arrival of new people to the region. Over the years Native American, Mexican, and Spanish influences all combined to create the spirit of a cuisine that has become uniquely Southwestern. It is this spirit of combining well-traveled flavors, cultivated for many generations that bring about the richness that has become Rio Adobe.
